

Hanger Selection Preferences

Get the correct hanger from Javelin quickly and easily the first time without forcing a selection for each connection. The easiest way to force a hanger selection in Javelin is to use the Install pricing. This allows you set priority and the install price does not get reported on any of Javelin's reports.

Steps:

 Open Material Manager (MM); this can be done in Javelin via the Setup menu or outside of Javelin via Windows Start menu. Materials Manager > Material Categories... click on the Metal Connector tab Change the Country to "Canada". Now select all of the connectors (pick first item in the list and hold down the

the connectors (pick first item in the list and hold down the shift key then pick the last item)

 Click Group Pricing button set the Install Price to \$999 replacing all existing pricing.

Group Pricing							2
Selected Items I Install Price List price Both	Pricing String	▼ to	Replace	▼ Se	ected items by	999.00	¢
					ОК	Ca	ncel

In this example we are going setup the database to select an IUS connector then an ITT connector.

3. Use the Series filter and select IUS from the list. This will only display IUS connector in the list. Select all (pick first item in the list and hold down the shift key then pick the last item) of the IUS connectors and set the Install Price to \$0.01 by Clicking the Group Pricing button, change the Install Price, Replace, 0.01 - click OK

roup Pricing						×
Selected items F Install Price List price Both	Pricing String	• to	Replace	Selected items by	þ.01	÷
				ОК] [0	uncel

 Change the Series filter to ITT and Select all (pick first item in the list and hold down the shift key then pick the last item) of the ITT connectors and set the Install Price to \$0.02 by Clicking the Group Pricing button, change the Install Price, Replace, 0.02 - click OK.

BusinessLink <u>File Edit View</u> <u>Setup</u> <u>T</u>ools Javelin v440445 ነ 🧰 📂 🛛 Schemes. Configuration Editor * Building Styles... Database Administrator Javelin Materials Manager Templates. Libraries.. Report Designer -Customers Back Program Settings. Materials Manager Search programs and file Q Software Activati Material Categ Sheet Material Metal Connectors Odd Size Sh Metal Co Lat Price Instal Price Incention Market Acoles ALL ALL @ Canada (P) USA Select Al Inv On ct Al Inv Off Help OK Cancel erial Cate Sheet Material ter Film IUS. ALL 🖯 USA 🛛 Canada Select Al Inv On No with Inv Off Help OK Cancel

Keep repeating this until all of your connectors have a value in the install price. For items that don't really have a preference just put the List Price in the Installed Price this way the system will select the most economical.

Efficiency Tip 13007

- 5. Once all of your connectors have a preference close Materials Manager and Javelin, for these changes to take effect in the database.
- 6. Start Javelin up and go to Settings > Schemes... (Any old File you will need to make the same change in Edit > Job Properties...) Job Settings > Design: Connector Design
